Dear Chair Forese and Commissioners,

As a small business owner, I must continuously upgrade my equipment to increase efficiency to increase my profit margin so I can further afford to upgrade and further increase my profit margin. APS is asking you to allow them to cheat this process by forcing costs onto ratepayers like me. They want to increase their profits at the expense of mine.

Dealing with these extreme temperatures and the threat of APS raising rates and fixed charges could harm not only my business but those around me.

Commissioners, please support Arizona's small businesses and deny APS the ability to increase their rates and to increase the fixed charge.

Sincerely,

FRANCIS MATHEW
